

# Multi-Aircraft Flight Training

*Award-Winning Pilots, Instructors,  
Flight Officers and Engineers*

KBR's multi-aircraft flight training is designed as an on-call commercial training solution for the U.S. military and international partner nations. KBR's flight training offers a series of pilot trainings on military and commercial aircraft variants in both domestic and mobile settings. We deliver custom aircrew training for military operations and/or support missions.

## AREAS OF EXPERTISE

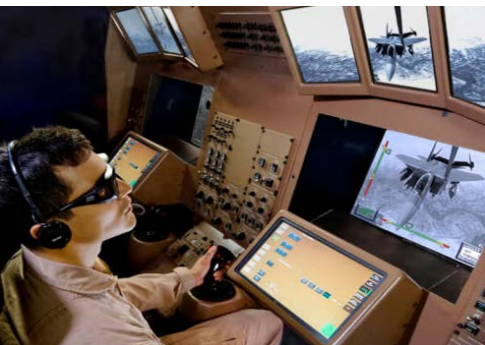

Pilots, navigators, and flight engineers can be trained from start to finish at customer or KBR locations. We provide a total pilot training package from commercial off-the-shelf (COTS) to custom military aircrew programs. For each program, KBR experts work side-by-side with customers in developing and defining requirements to guarantee they receive what is needed at the highest quality and best price.

**Total Pilot Training:** Initial, recurrent, advanced tactical, and instructor development courses. All training meeting Federal Aviation Part 141/142 standards

**Experience:** Significant flight experience and qualification training on a wide variety of airframes

**Types of Training:** Classroom, simulator and/or cockpit procedures training, as well as hands-on practical activities

**Other Services:** May provide required housing and transportation for participants

# Multi-Aircraft Flight Training

## PROVEN PERFORMANCE

KBR's significant flight experience and qualification training is available on a wide variety of airframes, including:

### FIXED WING

- Aero L-39
- An-26/32A
- AT-6/T-6 Texas II
- C-12D (Army variant),
- C-130 Hercules
- C-26
- C-27A / G-222
- Cessna 172/182, 208, 500/550
- Embraer 312/314 Tucano
- ERJ-145
- Falcon-20 and 20-5
- GulfStream 550, III, IV
- King Air-90/200, 300/350
- Lear Jet 35A
- P-3 Orion
- PC-12
- T-38 Talon
- TC/AC 690

### HELICOPTER

- Bell 206, 212, 407, 412, UH-1H, UH-1N
- MD-530F
- MI-17, 35
- S-70

### SIMS & ACADEMIC ONLY

- Boeing 707, 737-200-700, 767-200ER, 767-300ER
- KC-135
- Aerial Gunnery

## WHY KBR?

KBR is a prime contractor the U.S. Air Force and Navy, specializing in pipeline flight training spanning introductory screenings to advanced tactics in fast jet, helicopter, and transport aircraft. We also provide customers with multiple contract methods dedicated to providing the right training solutions through U.S. Government foreign military sales or as direct commercial support. All courses and materials are prepared and implemented by former U.S. Military qualified aircrew members, ensuring accuracy and integrity in the training process.

## NEXT STEPS

For information about our training services please contact Todd Weaver, Senior Project Manager, Aircrew Services & Training at +1 469.291.1033 or email at [todd.weaver@us.kbr.com](mailto:todd.weaver@us.kbr.com)

## ABOUT US

We deliver science, technology and engineering solutions to governments and companies around the world. KBR employs approximately 29,000 people worldwide with customers in more than 80 countries and operations in 40 countries.

KBR is proud to work with its customers across the globe to provide technology, value-added services, and long-term operations and maintenance services to ensure consistent delivery with predictable results. At KBR, We are the Team Behind the Mission.
