KBR delivers global contingency support services including rapid, short-term support services to include a wide range of functions such as airfield operations; facility operations and maintenance; food preparation and serving; housing and billeting coordination and/or construction; or other services determined to be urgent or necessary by the client.

**EXPEDITIONARY FOCUS**

For more than 75 years, KBR has provided logistics support to U.S. military and civilian forces deployed abroad. We optimize supply chain performance and quality, supplier cycle time, delivery performance, and inventory management through our integrated, centrally-managed, global sourcing programs.

**GLOBAL RESPONSE**

KBR teams can mobilize and respond to any event, within 24 hours, anywhere in the world. We bring KBR’s full resources to bear within 72 hours—even to remote locations. We continue to provide contingency response for man-made and natural disasters, leveraging our international footprint, robust global supply chain, and experienced senior leaders.

**BASE LIFE SUPPORT AND LOGISTICS SERVICES**

A KBR core competency, refined during conflict in the Middle East, is our ability to provide base life support for U. S. military, coalition forces, and contractor personnel anywhere in the world. We integrate our delivery across all elements of supply, logistics, operations and maintenance, food, housing, utilities, and recreation, using our proven, proprietary management approach.
GLOBAL CONTINGENCY EXPEDITIONARY LOGISTICS

- USACE Middle East District Construction (MED MATOC)

LOGISTICS CIVIL AUGMENTATION PROGRAM (LOGCAP)

As a U.S. Army contractor, KBR has supported military contingency activity, on a global basis, since the first major LOGCAP task was awarded in 1992. Currently, under LOGCAP IV, KBR supports a population of approximately 18,000 personnel spanning 40 locations across the Middle East and Europe, delivering life support and logistics, Operations and Maintenance (O&M), and general construction. At the start of Operation Inherent Resolve in 2015, 27 KBR employees rapidly deployed to Iraq delivering 23 different services on one site within the first two weeks.

LOGCAP IV EUCOM

As part of the LOGCAP IV EUCOM scope, KBR provides rapid response support to scheduled and unscheduled theatre-wide U.S. Army training exercises. KBR supported Saber Guardian 2017 with 17 sites in Austria, Hungary, Bulgaria and Romania. This exercise involved more than 20,000 U.S. and multinational troops.
